**Newsroom portfolio website:**
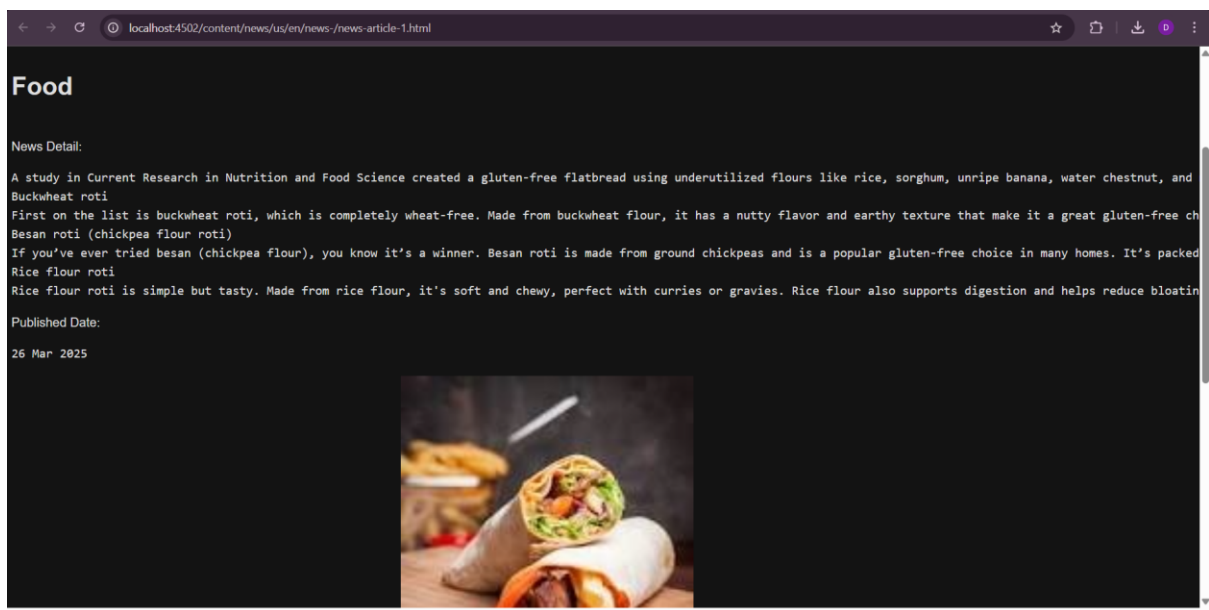

Project Structure:

1. Use the OOTB header component and create news(5), about me, contact me, and homepage. These pages should come in a header with proper styling and make sure books have a drop-down, so news should come.(The header should be used at the template level, so every page can use them).

News Detail:

VBTV, the leading streaming platform for volleyball fans, is taking live sports viewing to a new level. Starting today, VBTV will stream all Beach Pro Tour matches on its

These innovations have been made possible through Volleyball World's trusted broadcast operations partners: Blitz, Spalk, TGI and its video backend provider JWPlayer.

Ultra-smooth motion with 50FPS

With this new feature, fans can expect:

Smoother action: Spikes, sets and all ball movements will appear more fluid compared to lower frame rates
Reduced motion blur: Fast serves and rallies will be crisp and clear for easier viewing of high-speed moments
More lifelike gameplay: Matches will look and feel as though they are happening right in front of you
Clearer slow-motion replays: Key moments such as epic serves and dives are more detailed, providing an easier breakdown of crucial plays
Maximum clarity and detail with 9.5Mbps bitrate

With this new feature, fans can experience:

Sharper image quality: Fans can see every detail, from the sand texture to the spin of the ball and the athletes' expressions, with unmatched clarity
Fewer compression artifacts: The upgraded bitrate reduces pixelation in fast-moving scenes, ensuring smooth transitions through even the most intense plays
More depth in colours and contrast: Fans will experience even more vibrant and natural-looking visuals with detailed colour contrasts
Optimal for large screens: Fans watching on bigger TVs will benefit from high-definition quality that holds up on larger displays without losing sharpness
"We believe this upgrade will be a real game-changer for fans of beach volleyball," said Volleyball World CEO Finn Taylor.

"More and more we see our sport being consumed digitally, but we want that to reflect the in-person experience as much as possible. These upgrades in streaming quality wil

More Details.......

If I clicked more details it goes to entertainment page:

4. News page: Create a NewsRoom component which will get the News page as parent path (news page should be authored). This component should fetch all the news created under the /contact/news folder and make sure all the books should be placed under the /content/news folder. Create news article pages under /content/news hierarchy and author the page with title, image, and text component, so that when the NewsRoom component is authored, it fetches these properties from each page to show on the news page as cards. Each card should have Title, news details, and image, and make sure each card has a unique title, description, and image.
